

CENTRIFUGES

Types available

V3 | V300 | V400 |

Hydraulic Centrifuge Stands

Advantages

- Apex provides various industries with fully integrated variable-speed control centrifuges designed with Super Duplex Stainless Steel to achieve the industry's highest G-force.
- Our centrifuge drilling equipment is able to maximize the separation efficiency to condition fluids to the highest process and environmental standards.
- Strategic design of the fluid management system significantly reduces total fluid consumption, costs, and waste disposal.

Model, Centrifuge Manufacturer, Product Name

Apex model • V3
 Manufacturer • Alfa Laval
 Manufacturer model • DMNX 418

• V300S
 • Alfa Laval
 • DMNX 418

• V400
 • Alfa Laval
 • Lynx 40

Process capabilities (m³/min)

Water • 0.98m³
 Light mud • 0.85m³
 (1,050kg/m³)

• 1.2m³
 • 0.96m³

• 1.9m³
 • 1.5m³

Process control

Gearbox torque • 3.5 kN
 Control automation • Fully variable
 Volts • 480 V

• 3.5 kN
 • Fully variable
 • 480 V

• 6 kN
 • Fully variable
 • 480 V
