

BOILER

Advantages

- 2-pass, dry back firetube boiler.
- High energy efficiency.
- Easy operation.
- Full access to boiler tubes, tube sheet and furnace for ease of maintenance.
- Boiler blowdown tank available.

Equipment specifications

- 125 hp boilers
- Heating surface: 625 ft²
- Steam output (at 212° F): 4,312 lb/hour
- Blower motor 3 HP
- Water capacity (operating): 827 gal
- Water capacity (flooded): 927 gal
- Gross output: 4184 MBH
- Energy input: 5250 MBTU
- Dimensions: 76" wide x 82" high x 178" long
- Power requirements: 208 V 30 A (4W4P) 3 phase
