Polymer Injection Tank

Advantages

- Manifold to control water volumes while mixing
- Steam coils and drain plugs for cold weather operation
- Three injection pumps each powered by a 2hp electric motor with variable speed controls
- Two gear driven agitators each powered by a 2hp electric motor

Equipment Details

Specifications

- Two compartment open top tank
- Volume: 10m³
- Quartz halogen lighting
- 208 volt single phase power requirement
- 25mm injection lines
- 50mm manifold valves
- 5'H x 6.5'W x 15'L
